Technology Catalog and Price List

Technology, Software, Supplies & Services for Schools and Public Agencies | Price list date: November 25, 2026

Basis of pricing. D3 offers schools, public agencies, and qualifying non-profits a minimum 2% discount off the manufacturer's or publisher's current published U.S. list price (MSRP) on its entire technology offering. Many items carry deeper net prices, shown below as representative examples. Net prices reflect distributor pricing as of November 2026 and may change with the market; the minimum discount off list applies to all products. Contract pricing under awarded district or cooperative contracts follows that contract's terms. Prices exclude tax; tax-exempt customers are not charged sales tax. Before each purchase order, D3 provides a written quote citing manufacturer, part number, list price, and any applicable contract or bid number.

Part A — Technology equipment

Brand	Mfr. part #	Description	List price	Public Sector Price	Discount
Dell	P2225H	Dell Pro 22 Plus Monitor, 21.5" FHD	$164.99	**$161.69**	2%
